

BOLTON PUBLIC SCHOOLS

August 31, 2021

Dear Bolton Families and Staff,

We are looking forward to welcoming our students to the 2021-2022 school year tomorrow where they will be greeted by caring adults who are committed to their social, emotional, and academic growth! Although we continue to face challenging times, it is gratitude, kindness, empathy, and hope that will allow us to embrace our innate ability to support each other and every single one of our students as we navigate this rocky road together through shared priorities and our common humanity. We will continue to support each other as we work to help every child discover their dreams, develop grit and determination in working through challenges, and build upon their strengths to achieve their goals.

While we are not out of this pandemic yet, the challenges we have overcome together demonstrate our collective resiliency, the importance of school and family partnerships, and our commitment to our students. Our collaboration and relationships remain one of our greatest strengths. As always, I appreciate your patience, kindness, support, and partnership as we navigate the complexities of operating schools during a pandemic.

Attached please find two letters regarding required notifications to parents and students. The first letter provides information regarding notification of certain Bolton Board of Education Policies ~ [Annual Notification of Bolton BOE Policies 2021.pdf](#) The second letter outlines certain rights with regards to a student's education records ~ [Directory Information Letter 2021.pdf](#).

Welcome again to the new school year!

Warm regards,

Kristin B. Heckt

Kristin B. Heckt
